V. Remarks or Additional Information:

The proposed local law would make it clear that only one use is permitted per lot in residential districts and that more than one use is permitted per lot in non-residential districts.

The proposed action would codify an existing practice that is overlooked in the code. Therefore, it is not anticipated to result in any adverse environmental impacts. The proposed action does not change the allowable uses in any district, nor does it change the dimensional standards or parking requirements.

The action will apply village-wide and therefore will occur in or contiguous to a number of resource areas identified in the LWRP. That said it is not anticipated that there be a significant effect on any resource areas identified.
