**To:** Zamft, Eric  
**Cc:** Lil Paul Reyes (CENSUS/NY FED)  
**Subject:** Starting a Completer Count Committee

Good morning Mr. Zamft,

Thank you for your interest in starting a complete count committee (CCC). The CCCs are very important for the Census to get the word out to each community regarding the ease and importance of the 2020 Census. As the Partnership Specialist working with the counties outside of New York City, I am sending you the available information on Complete Count Committees. Once you have had the opportunity to read through the material linked below, I am available to discuss the formation of a CCC and address any questions you may have. Ideally I can meet with you and your beginning group to provide guidance and direction.

The Census Bureau's public-facing website now has information and resources about Complete Count Committees, including the CCC guide and brochures. The page also contains a timeline, and links to the ROAM and Census Engagement Navigator.
