Following up from our Board meeting of March 25, 2019, Trustee Waitt asked that we discuss the hanging flower baskets on Mamaroneck Avenue.

The review of the baskets involves two separate items, the type of basket we use and the choice of flowers planted in the basket. As it relates to the basket, it is a 14" diameter hanging flower basket made of plastic which is color coordinated with the decorative street lamps.

In regard to the flowers, I have reviewed this matter with the General Foreman of the Department of Public Works. Mr. Iacovelli reports that we typically change the flower types every three (3) years. The flower types were changed in 2018. On a normal schedule, we would change the flower types in 2021. If there is a desire to change, however, there are a number of options to choose from including petunias, ivy geraniums, million bells, etc. A number of pictures are attached to this memorandum detailing various options.

As it relates to expenses, staff would require additional direction/guidance.

Cascading Petunias

Two-Way Hook Hanging Style Brackets
