Hello Bevin,

There is a recorded Native American archaeological site located about a third of a mile to the southeast of your project area, and several more a bit farther away. This is the basis of the 'archaeologically sensitive' designation. Based on the amount of development in the immediate vicinity of your property, we probably would have no archaeological concerns. However, I cannot provide an official opinion without a formal review.

Philip.

ATTENTION: This email came from an external source. Do not open attachments or click on links from unknown senders or unexpected emails.

Good Afternoon,

We spoke briefly earlier today regarding the possibility of a property being located in or adjacent to an area designated as sensitive for archaeological sites designated by the NY SHPO archaeological site inventory... basically someone checked "yes" to question E.3.(f) in the full Environmental Assessment Form but none of us knows why. The person who filled out the EAF is no longer with the company so we can not ask them the reason they answered this way.

We are being informally asked by the Village of Mamaroneck to dig deeper (pardon the pun) to see if, in fact, the property is in or adjacent to such an area. Your help is greatly appreciated in this matter.

We have a recent survey of the property which I could send a pdf of, would this be acceptable or does it have to be a street map?

The address of the property is

416 Waverly Ave

Mamaroneck, NY 10543

Thank you,

Bevin Falk
