Village of Mamaroneck
Village Hall (Third Floor)
169 Mt. Pleasant Avenue
Mamaroneck, NY 10543

Attention: Building Department

Reference: Applications for Floating Dock
Goodman, 4 Shore Road

To Whom It May Concern:

RACE COASTAL ENGINEERING ("RACE"), on behalf of the Applicant/Owner, Robert Goodman, are pleased to submit the enclosed applications for a gangway and floating dock for boating access at 4 Shore Road. In addition to the Building Permit, we have anticipated that review and approvals will be required by the Planning Board for a Wetlands Permit and Harbor and Coastal Zone Management Commission for a Marine Structures Permit. The required application materials for each board are included. The proposed dock structures have the necessary approvals from the DEC and US Army Corps of Engineers.

We are hopeful that the Building Department can advise of the next steps or additional materials that may be required so we can move to the Planning Department most efficiently and get scheduled for an upcoming Planning Board meeting. We have enclosed the \$239.00 fee for the Wetlands Application. As the site has ongoing construction and active permits for other work, the Owner maintains the following escrow accounts with the Village. As such, additional funds for escrow are not required.

TA 3103.0545 Wetlands \$1,500
TA 3103.0547 Harbor and Coastal Zone \$2,000

Please contact the undersigned at 203-377-0663 or azuredee@racecoastal.com with any questions or comments.

Very truly yours,

RACE COASTAL ENGINEERING
