

MEMORANDUM

Village of Mamaroneck

To: Board of Traffic Commissioners

From: Daniel J. Sarnoff, Assistant Village Manager

Re: Request to Extend the “No Parking Restriction” on the East Side of Heathcote Avenue, north of Prospect Avenue

P 914-777-7703

F 914-777-7760

Date: December 2, 2021

www.villageofmamaroneck.org

Earlier this morning, I met with Acting Assistant General Foreman James Barney to review the parking on Heathcote Avenue. Mr. Barney highlighted that when cars are parked on either side of Heathcote Avenue north or Prospect Avenue, it is not possible for sanitation vehicles (or other larger vehicles) to make turning movements from Prospect Avenue onto Heathcote Avenue heading northbound.

For your review, I am including a copy of an e-mail Mr. Barney sent to me following our meeting. The roadway is approximately 24’ feet wide, and assuming vehicles are parked on both sides, it leaves an approximate 8’ travel lane which cannot support two lane traffic, let alone not being wide enough to support heavy vehicles such as sanitation vehicles or large dump trucks. Mr. Barney reported that when vehicles are parked on both sides, sanitation trucks have to drive in reverse from the Stanley Avenue side of Heathcote Avenue to access the roadway. See below picture.

Heathcote Avenue looking south (adjacent to 505 Prospect Avenue)

Although not an official recommendation or request from the Fire Department, Mr. Barney is also a Chief in the Village of Mamaroneck Fire Department and he stated that this would also be an impediment for fire apparatus.

Based on the field inspection, staff recommends that the existing “no parking” restriction be extended from the current 20’ on the west side of the road of north of Prospect Avenue to 150’ north of Prospect Avenue. As demonstrated by the photo below, the paved roadway is wider in front of 212 Heathcote Road and is constricted in front of 505 Prospect Avenue.

I respectfully request that this item be placed on the next Traffic Safety Commission agenda for your consideration. If you have any questions, or require additional information, please let me know.

Subject: FW: quick site visit?

Dan,

Regarding our site meeting. Here are a few photos of the road where the sanitation trucks have been unable to pass. After measuring the space in the photo, a pick-up with a plow would not fit either as well as emergency vehicles. We suggest removing one side of the street parking for safety reasons.

Thank you for looking into this.

James Barney

Good morning Dan,

Do you possibly have 30 minutes this morning to meet on site about a traffic/parking issue? We are having trouble with sanitation trucks passing through a roadway, and I am sure a firetruck will meet the same issues.

Thanks,

James Barney
