

Neighborhood Context DEC Tidal Wetland Map

- DEC Tidal Wetland
- FEMA Flood Hazard Zone
- 100' Projection
- 50' Projection
- Pool Identification

1000' From 921 Soundview

Geo-referenced scanned images of the official 1974 tidal wetlands inventory maps of the New York State Department of Environmental Conservation (DEC). They represent tidal wetlands within the marine district of New York State (Tappan Zee Bridge, south to and including Staten Island, east to and including Long Island and Fishers Island).
