Subject: Re: light on west Boston post road (Mamaroneck high school)

Good afternoon all

Verde is unable to get light back up and running. There is multiple shorts in the line from the overhead wire to the traffic control box. It will stay flashing yellow. Verde is sending me quote this afternoon for full replacement as it cannot be banded

Once I receive quote I will forward it on to Dan and Jerry/ board for an emergency repair to a vitals traffic light in the village

Chief I don't know if we want to talk about some kind of traffic control for arrival and dismissal for school.

Thanks
Jeff

Good morning dan and chief

The light at 1000 West Boston post road has a short in it. I am being told they replaced the piece 2 weeks ago that shorted out and it seems to be shorting out every rain storm.

Right now I spoke with Rich from Verde and they are going to try and locate the new switch, and also provide us with a quote to rewire the box so it doesn't short out after every rain storm

Thank you
